

# SRE

**SRE Ltd** provides independent renewable energy and sustainability advice in support of new and existing developments for a wide range of public and private clients.

We are a growing company and are looking for someone to join our team in support of our Code for Sustainable Homes and general Sustainability Consultancy work.

The successful candidate will need to be a graduate, ideally with a relevant post-graduate degree or recent experience of the construction, engineering or energy sector.

Alternatively SRE would welcome qualified SAP, Code for Sustainable Homes or BREEAM trained assessors who want to work full-time as a key member of the SRE team.

We would be happy to receive applications from candidates with the following:

- Interest in Climate Change and Sustainability
- Team player, ambitious and sympathetic to our company philosophy
- Knowledge of the Code for Sustainable Homes or construction industry experience
- Ability to assess and compile technical data, read architectural drawings and write concise reports

The role offers genuine career development and training for the right candidate who is committed to the growth of this small but rapidly expanding company and seeking to specialise in the sustainability sector.

The position will be based in our offices just outside Petersfield, Hampshire and the salary will be dependent on experience.

If you feel you have the experience and qualifications required for this position please send a copy of your CV and a covering letter to: [anna@sre.co.uk](mailto:anna@sre.co.uk)
